I have informed Mr. Cotter, of the Staff of the Joint Congressional Committee on Atomic Energy, that CIA has determined that it will be impossible to utilize its special authorities under Section 8 of our Act to grant permanent residence in the United States to Mrs. [REDACTED] the wife of an employee of the Atomic Energy Commission. I have suggested that the Committee might wish to have the Chairman of the AEC take the matter up at the highest level in the Department of HE&W in an attempt to get a reversal of the Surgeon General's opinion.
